## Post Office In New Building Soon

The building formerly occupied by the B & B Store on East Main Street, Pahokee, is undergoing repairs and remodeling preparatory to the moving of the Pahokee postoffice from the Chastain building in July.

Other building activities in this area: J. C. Blanton is building a concrete-block residence in the Vetteville subdivision. V. L. Geiger recently completed a two-bedroom frame residence on Cypress Ave., which was purchased and is now being occupied by Mr. and Mrs. Edwin Cowart. On the same street opposite to this home Geiger is building a two-bedroom concrete-block residence. He is also adding a three-room residential apartment to the rear of the Vee-Gee self-service laundry building on Barfield Highway.

The new concrete-block residence of Mr. and Mrs. Eugene Pickren is nearing completion on Bacon Point Road and Mr. and Mrs. A. R. Harrington are adding a bedroom to their home in Canal Point.

## New Liquor Hours Oked By Court

An injunction suit by four Glades liquor establishment owners to nullify a uniform hour regulation adopted May 26 by the County Commission, was dismissed in circuit court here Monday by Judge Joseph S. White when he ruled that the "complaint is without equity," and that the action of the county board was "entirely proper."

Complying with a request by the city councils of Belle Glade, Pahokee and South Bay, the County Commission adopted a resolution providing that suburban liquor places in the western section of the county may remain open daily from 8 a. m. to 12 midnight, except on Saturdays they may remain open to 1 a. m. Sunday, but must close at that hour for the remainder of Sunday.

Mrs. George Makos, W. M. Johnson, Ben C. Rogers and W. D. Glennon, the four liquor store owners in suburban districts, alleged that the regulation was discriminatory and unconstitutional on grounds that the county board could not arbitrarily set certain hours in one part of the county and other hours in other areas. The section affected lies west of a north-south line at 20-Mile Bend. In his order dismissing the suit, Judge White stated that the migratory labor situation in the Glades is a proper condition for consideration in such legal actions.

"It seems entirely reasonable and proper that different hours of selling intoxicating beverages be established for that area than in the metropolitan areas making up the eastern section of the county," Judge White stated in his order. Opponents of the new regulation previously told the County Commission that the stricter hours would lead to widespread bootlegging.—Palm Beach Times.

## Air Force Selects Canal Point As Base For Operation Of A Marine Crash Rescue Boat Detachment

With the arrival of an Air Force 40-foot crash rescue boat on Monday of this week, Canal Point became the base for operation of a Marine crash rescue boat detachment with headquarters at Peanut Island, West Palm Beach.

Capt. Frank L. Altman, Lincoln, Ill., is commanding officer of the Marine crash rescue squadron of Palm Beach International Airport. A senior pilot with 13 years experience, Capt. Altman recently returned from three years duty in Alaska.

The primary duty of this detachment stationed at Canal Point will be to cover training operations of 2156th and 12th Air Rescue Squadrons of Palm Beach International Airport. These operations will include night and day practice water landings and parachute jumps into Lake Okeechobee by personnel in training. In addition the crash boat will be available for civilian rescue operations in the lake.

The crash rescue boat, especially designed for the air force, features a revolutionary method of retrieving injured survivors from the water. It is fitted with a hinged transom gate which opens into a self-bailing cockpit, making it possible to transfer casualties from the water to the dispensary with a minimum of handling. Propeller guards are fitted port and starboard as well as to the transom gate to permit maneuvering safely in proximity to swimmers or casualties during rescue operations.

Accompanying Captain Altman in bringing the rescue boat from MacDill Air Force Base, Tampa, to Canal Point were the following Airmen:

T-Sgt. Herbert H. Lawrence, Master, an Ex-Royal Canadian Air Force officer with 10 years military service in Alaska, Europe, India and Burma as Ship's Master and Pathfinder-Navigator.

Airmen Second Class Henry W. Usilton of Lakeland, Fla., Engineer, with 9 years service covering Korea, Panama, Japan, New Guinea and Australia. Airmen Usilton saw service as second engineer in 10,000 ton supply vessels.

Airmen First Class Vernon C. Crawford of Watseka, Ill., Seaman with 6 years service in the U. S. Navy and Air Force in the Atlantic and Pacific.

S-Sgt. Melvin D. Johnson of Tallahassee, Fla., Radio operator with 5 years service in Alaska, Puerto Rico and the South Pacific. Joining the boat at Canal Point to make up the full crew were S-Sgt. Wayne A. Mellesmoen, Duluth, Minn., seaman who saw service with the Navy and Air Force in Africa and the Atlantic, and S-Sgt. James S. Blue of Southern Pines, N. C., Medical Attendant, who has served with the U. S. Army and Air Force in Japan.

## Bend Drive-In Cafe Open For Business

The Bend Drive-In is now open and serving delightful foods, according to the manager, Mike Bartolomeo, former Pahokee resident. The spot has been completely renovated and offers curb service. Chicken and shrimp in a basket are two of the specialties.

Bill Golden is the owner and is helping the new manager get away to a good start. The soda fountain offers delightful drinks. The place is fully equipped for inside dining and dancing.

## June 17 Is Opening Date For Drive-In

Movies Under The Stars will soon be a reality for the Pahokee-Belle Glade area. The management of the Gold Dobrow Theatres has announced that the new Lake Drive-In Theatre between Pahokee and Belle Glade will open Tuesday, June 17th.

Work is nearing completion at the drive-in site. The trusses for the huge screen tower were hoisted into position last week, and surfacing of the screen tower will be completed this week. Finishing touches are now being placed on the projection booth and snack bar.

The installation of the speaker posts, individual speakers is now under way. This is the final step in the installation of the projection equipment. Each speaker will have its own volume control so that patrons may adjust the sound to suit individual needs.

Although efforts are being made to have the job completed by open date, some portions of the operation will not be ready; among these is the children's playground which will be located in front of the screen. This will be completed as rapidly as possible, so as to afford an extra service for patrons with small children.

The state gasoline tax at 7 cents per gallon raised \$59,477,000 for Florida last year, or 9.8 per cent more than in 1950.

## A. Barad Purchases Canal Pt Pharmacy

The Canal Point Pharmacy is under new ownership and management since June 1, Arnold Barad having bought the drug store and building from M. C. Carter. The Carters have moved to Port Mayaca and the Barads have moved into the apartment over the drug store.

The building purchased by Mr. Barad houses the drug store, The Sport Shop, Grady Echols Grocery store and Dr. Williams office. The purchase price was not made public.

The Sport Shop will remain in its present location until a year from this coming September when Mr. Carter plans to move it into a new building he will erect alongside the recently constructed Shell Station in Canal Point. In the meantime he will operate it in its present location.

A few months ago Mr. Barad bought Dow Geiger's half interest in the drug store. The recent transaction makes him sole owner of the drug store and building. He will be assisted in operation of the store by his wife and Miss Genevieve Bardin who formerly worked in the Sport Shop.

## Commerce Group Hears State Praised

"Forging Ahead With Florida" was the subject of a public address given by R. B. Roberts of Miami in the Woman's Club building here Monday night under the sponsorship to the Pahokee Chamber of Commerce.

In his talk the speaker said the population of Florida has doubled itself every 20 years for the last 100 years, while the volume of electric power sales in the States has doubled every five years over the same period. He praised Florida as a place to live, saying it leads the nation in the standard of living of its residents, and the economy of the southeast part of Florida is more stable than that of any other part of the nation.

## Canal Point Lions Hear B. S. Roberts

Benjamin S. Roberts was guest speaker at the dinner meeting of the Canal Point Lions Club Monday night.

Introduced by Delmar L. Hooks, the speaker gave a talk on "Current Events in Europe and their Effect on the United States." Mr. Roberts is associated with Dr. E. W. Brandes in Palm Beach Research Farms at Canal Point.

Vice President Grady Echols presided in the absence of President Floyd Erickson.

## Methodists Plan To Erect New Church

Members of the Canal Point Methodist Church are planning to build a new church building on the site of the present parsonage. A drive to raise finances for the work got under way this week. It is hoped that \$20,000 can be raised as this is the amount that estimates say it will take to carry out the improvement plan as set forth by the planning committee.

On the planning committee are: A. R. Harrington, chairman, Mrs. George Kingsley, Mrs. Clifford Stuart, Mrs. Frank Wilson, D. L. Hooks, Earl Maxson, W. E. Johnson and Rev. James Roy.

Plans call for razing the old church building and to move the present parsonage to the old church site. The new structure will be erected on the present parsonage site. Plans call also for extension toward the street of the recently constructed Sunday School building for a distance of 28 feet thereby making it flush with the front of the new church edifice. The two buildings will be connected with a covered walkway.

Members of the congregation are enthusiastic over the outlook for success of the fund raising campaign. With its completion they hope that actual construction work can get under way in the not too distant future.

## Hooks' Fire Wells Aid Fire Fighting

Homes and business houses south of the canal in Canal Point are now fairly well protected in case of fire, since D. L. Hooks recently had two fire wells drilled near his store. The two wells are connected with large pipe and fitted with a regulation fire hydrant connection. Last Saturday the fire truck from Pahokee tried out the new wells and they furnished 700 gallons of water per minute, according to Mr. Hooks who paid for drilling of the wells.

An emergency fire well across the railroad tracks between the Lake Okeechobee Farmers Cooperative and the Nocatee-Manatee Cattle Company warehouse furnishes water in case of fire in that section of the packing house center.

The West Palm Beach canal furnishes water to fight fire in the business and residential section immediately south of the canal. With the present set-up the area south of the canal is in good shape if a fire should break out. Other sections of Canal Point are not so well protected.

## New Scout Troop Will Attend Camp

All members of Pahokee Boy Scout Troop No. 28, sponsored by the Pahokee Lions Club, will get to go to camp this summer as a result of a job well done by the youngsters. Management of the Prince Theatre split profits with the youngsters at Tuesday and Wednesday nights' show and the Troop earned well over \$100 in cold cash to defray camping expenses.

Members of the Troop sold tickets to the special show and soon after the film started Tuesday night, management and Troop officials checked up and found to their delight that the youngsters had earned well over \$100.

The \$100 will take care of expenses of the entire group of Scouters which number less than 10 members. The camp, as usual, will be held at Palm Beach County Camp Osborne near Lantana.

## Mac Lynn Given A Farewell Party

Tommy Elliott was host at his home in Pahokee Tuesday night at a farewell party honoring Mac Lynn, who left Wednesday for Nashville, Tenn., where he will attend the summer session of the David Lipscomb College. Mac, a member of the Pahokee High School Class of 1952, is studying to be a minister and plans to continue his ministerial studies at Florida Christian College in Tampa in the fall.

Games were enjoyed through the evening. Mrs. Thomas Elliott assisted her son with the serving of refreshments of sandwiches, cakes and Cokes.

Robert W. Rutledge, former executive director of United Growers and Shippers Association, was recently named general manager of Florida Citrus Mutual.

Do you have Series E Defense Bonds coming due this year?

# Here's a money-earning opportunity for you

Now—a new law lets your maturing Series E Bonds go on earning for you ten years longer! And you don't have to do a thing!

ARE YOU one of those patriotic citizens who began buying—and holding—Series E Bonds ten years ago? Now your government is going to reward your faith with a chance for your bonds to earn extra money—over and above what you'd expected!

According to the bill passed by Congress last spring, it is now possible for your United States Series E Bonds to continue earning interest ten years longer than was originally planned.

Therefore, if you started an automatic bond saving plan, and helped your country at the same time, you can look forward to ten years more of effortless earning from the bonds you bought!

For example, a Series E Bond which cost you \$18.75 in 1942 will pay you \$25 in 1952. But

if you hold that bond ten extra years, until 1962, it will pay you \$33.33, an average interest of 2.9%.

And there is nothing for you, as a bond holder, to do. You need not exchange the bonds you have. You need not sign any paper, fill out any form. You simply keep your bonds as you have been keeping them.

You may still redeem any Series E Bond at any time after you've owned it for sixty days. (The tables on this page show what you can get for it.) But, unless you really need the cash you're much better off to hold your bonds; they are a paying method of saving. Bonds are safer than cash! Cash is too easily spent on nonessential things. And if you lose or accidentally destroy it, you're out that much money. But when you have cash in Defense Bonds, you're more apt

to hold on to it. And if your bonds are lost or destroyed, the Treasury will replace them for you at no cost or loss to you.

The cash you have in bond savings is safe and solid; and it's steadily growing toward a sum big enough to buy something really worth while when the proper time comes—a home, a business, a retirement fund, an education for your children.

So if you have bonds coming due, take advantage of this new offer of your government—just sit back and let them go on making money. Meanwhile keep adding to your savings by buying more United States Defense Bonds regularly—through the Payroll Savings Plan where you work or the Bond-A-Month Plan where you bank.

If you want to be paid your interest as current income—

The new law also allows you to exchange your Series E Bonds, in blocks of \$500 or more, for Special Series G Bonds which pay interest semiannually at the rate of 2 3/4 % per year. For full details, ask at any Federal Reserve Bank or Branch.

## Defense is your job, too!

**T**HIS IS A DAY OF DREAMS COME TRUE... for the returning Korean War veterans pressing against the ship's rail and for their loved ones waiting on the dock. The counted days of waiting are over. The nightmare of war is behind them. These boys have seen far across the seas doing a hard, dirty, bloody job... a job of defense—for you.

But defense is your job, too. It is our job to help make America's economy as strong and dependable as these men have made her military power. And your job can be not only easy but rewarding—in financial security for you and your family. Just buy U.S. Defense Bonds. Buy them now and buy them regularly. For your bonds and other forms of saving can make America strong. And in this warring world, *strength* is America's surest guarantee of peace.

So sign up for bonds today—through the Payroll Savings Plan where you work or the Bond-A-Month Plan where you bank. For your security and your country's, too, buy United States Defense Bonds regularly!

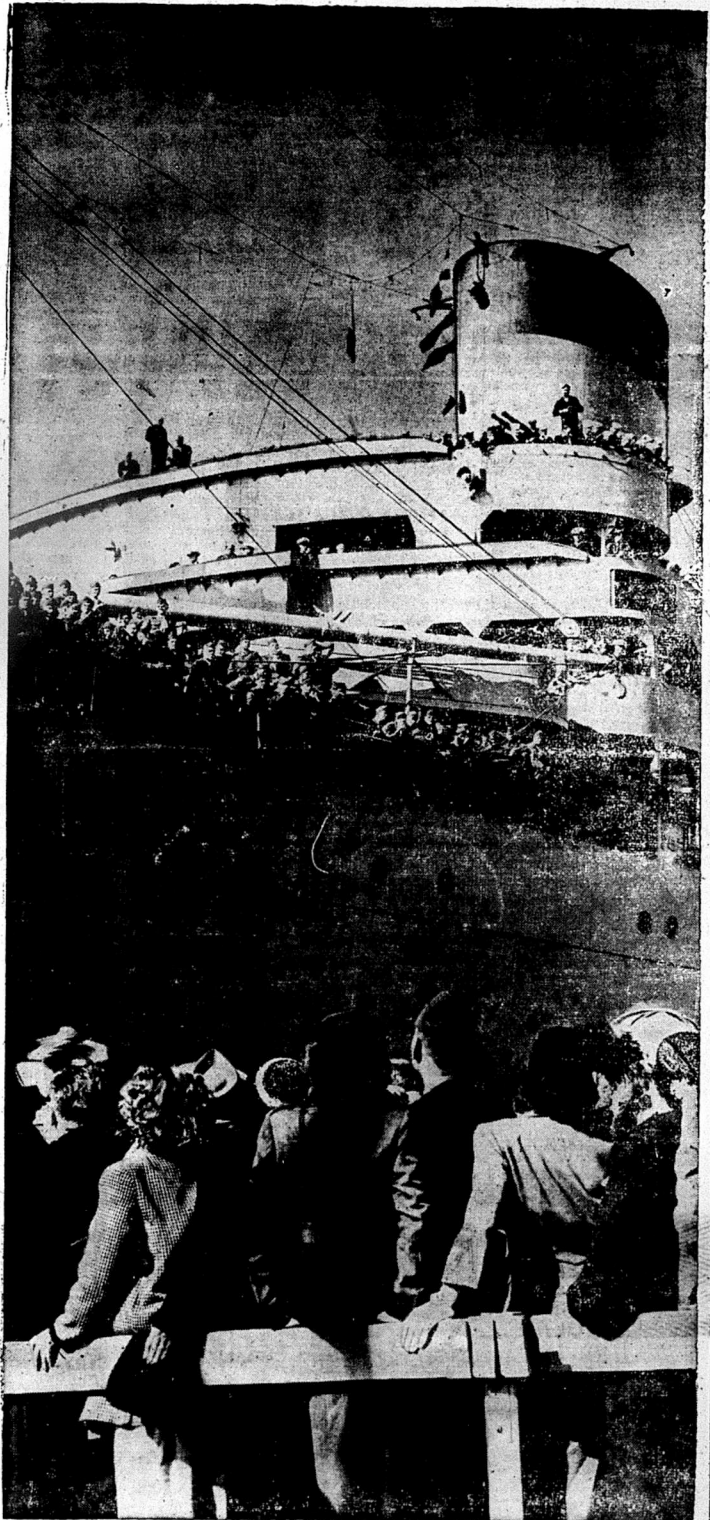

### The U. S. Defense Bonds you buy give you personal financial independence

Don't forget that bonds are now a better buy than ever. Because now *every Series E Bond* you own can automatically go on earning interest every year for 20 years from date of purchase instead of 10 as before! This means that the bond you bought for \$18.75 can return you not just \$25—but as much as \$33.33! A \$37.50 bond pays \$66.66. And so on. For your security, and your country's too, buy U. S. Defense Bonds now! Bankers recommend them as one of the safest forms of investment.

Christian Science Group Of Canal Point

The subject of the Lesson-Sermon to be read in all Churches of Christ, Scientist, next Sunday is "GOD THE ONLY CAUSE is developed it emphasizes the perfection of God's creation.

A verse from Malachi (2:10) furnishes the Golden Text: "Have we not all one father? hath not one God created us?"

Selections from the Bible include: "Touching the Almighty, we cannot find him out: he is excellent in power, and in judgment, and in plenty of justice: he will not afflict" (Job 37:32).

Passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, include: "If sin, sickness, and death are as real as Life, Truth, and Love, then they must all be from the same source; God must be their author . . . Is it possible, then, to believe that the evils which Jesus lived to destroy are real or the offspring of the divine will?" (p. 474).

ABOUT PEOPLE

Mr. and Mrs. J. W. Vann of Pahokee were called to Salemburg, N. C., last Wednesday night on account of the death of Mr. Vann's brother, T. C. Vann. The Vanns were in Daytona Beach where they had just attended the state convention of Lions Clubs when they received word, having gone there Sunday from St. Petersburg where they had attended the State Elks Convention. They left immediately upon receipt of the death message for Salemburg. The funeral was held last Thursday. The Vanns returned to their home in Pahokee on Tuesday of this week. They were accompanied by a niece Miss Patty Smith of Kelly, N. C., who will visit with them for a while.

Harlan Sears, Jr., will be graduated from Emory University in Atlanta tomorrow night with an AB degree. Present to witness the ceremony will be his parents, Mr. and Mrs. Harlan Sears, Sr., of Canal Point. Little Harlan is a graduate of Pahokee high school and during the summers he has been employed with the State Road Department. He has been accepted in the optometry school at Memphis and will take up his new studies there in September.

And this item concerns a lot of people. A lot of people who put the welfare of the boys in Korea ahead of their own selfish interests. Last week 52 folks offered blood in the blood collection drive. Nine were rejected for one reason or another—with the result that 43 pints of blood were donated. Fourteen folks from Canal Point, one from West Palm Beach and 37 from Pahokee donated a pint each. It is another job well done and each donor is entitled to commendation.

When the Bank of Pahokee closes its day's business this afternoon one of its employees will be counting big on a three weeks vacation. Gene McIlwain, cashier of the institution, with his family will leave late tonight for Hip Point, N. C., where they will spend three weeks with relatives and friends. Mr. McIlwain's mother is there and they will visit her among other relatives. Mr. McIlwain's window at the bank is the one that handles most of the payrolls during the season. To say that he has been busy this season is putting it mildly. With one of the biggest seasons just coming to a close it is a fact that Gene has handed out more millions in payrolls this season than ever before.

P. F. C. James E. Riffey of Canal Point, who has been stationed in Wyoming is spending a 20 day leave with his family and relatives. James is in the Air Corps, and after his leave he reports to Puerto Rico, where he expects to be stationed for the next 36 months.

## Picture of a Pair who just waked up

HERE in the driveway is a Buick. It has just arrived. It belongs to this proud young couple. They've just "arrived" too.

They've arrived at a discovery—the discovery that owning a Buick instead of a "low-priced car" isn't so much a matter of money.

It's a matter of knowing the facts of life. Buick prices are closer to the prices of smaller, less powerful, less distinguished cars than most people think.

Why don't you check into this?

You'll find you could pay \$300 to \$400 more—and still not match the horsepower of this nimble beauty.

You could pay hundreds of dollars more—and still not get any more interior room, or richer fabrics.

But that's only part of the story.

The big thing about any car is the way it goes. So you ought to find out how this car rides the road—the freedom from bobble and sway that cost a million real dollars to develop.

You ought to sample the way Dynaflo Drive\*

feeds the power—with a steady swoop and unbroken smoothness in city traffic, on hills, or out on the open road.

And you ought to know how it feels to touch off that Fireball 8 Engine. With all its might, this high-compression valve-in-head gets a lot of miles from a gallon of gas.

We'll tell you this—because a lot of folks have told us this: No matter what car you're driving now—no matter what cars you've looked at—they'll never seem the same after you try this one.

Just give us a chance to prove it—and you'll have a lot of fun.

Equipment, accessories, trim and models are subject to change without notice. \*Standard on Roadmaster, optional at extra cost on other Series.
